

MARCH 2026 NEWSLETTER

Dear FAM-ily!

March has been a month of meaningful progress at the Institute. As we completed the first bimester of the academic year, our students demonstrated strong commitment to their learning and growth.

This month also gave us the opportunity to evaluate student progress, strengthen support systems, and continue building a learning environment rooted in care, responsibility, and community.

Learning to Save Lives

This month, our students participated in a CPR (Cardiopulmonary Resuscitation) training, gaining essential skills that can make a life-saving difference in critical situations.

At FAM, we believe education goes beyond the classroom—it prepares students to care for others and respond with confidence and responsibility.

Bimester Completion

During March, we successfully completed the first of four academic bimesters. Our students performed very well in their evaluations, reflecting their effort and dedication. These assessments also help us identify areas where students may need additional mentoring or support, allowing us to provide targeted guidance and continue strengthening their learning journey.

As part of this process, we held a special day at the Institute where parents received grade reports and met with teachers to discuss how to better support their children's education at home.

Building Future Leaders

Students participated in the election of their student government, strengthening values such as leadership, participation, and responsibility. Through these experiences, students learn the importance of having a voice and contributing positively to their community.

LOOKING AHEAD

As we continue through the school year, we remain focused on strengthening our programs and expanding opportunities for our students.

Your support helps provide:

- Student transportation
- School meals
- Sponsored education
- Teacher development
- Access to technology and science education

Together, we are building brighter futures.
