

Thank you Mrs. Alice Asturias

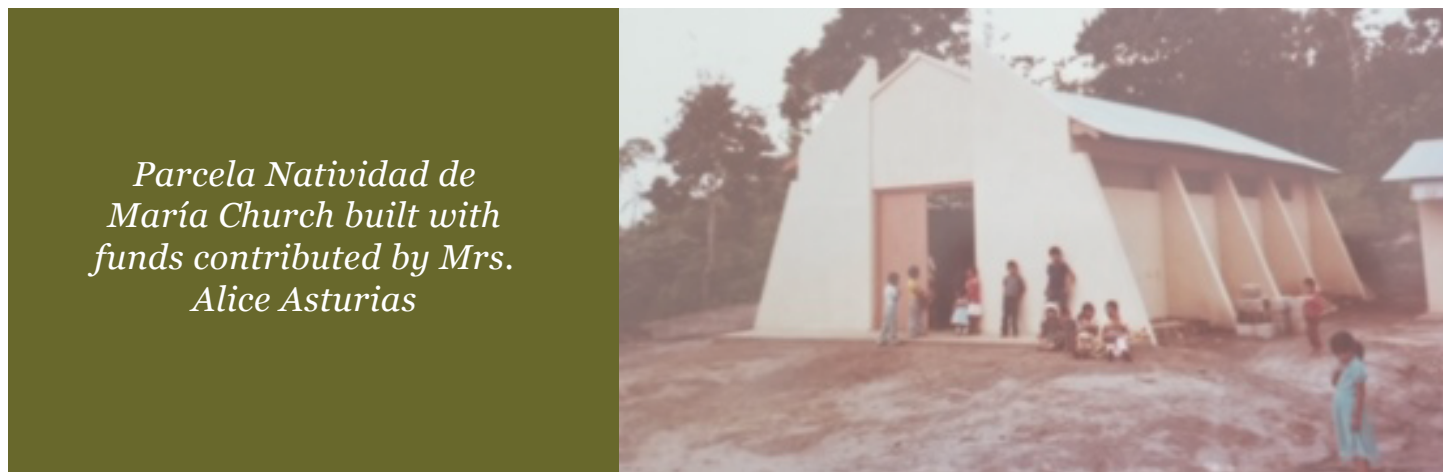

Mrs. Alice Asturias has spent over the last fifty years helping the farm families of the area of La Reforma and Finca Dos Marias.

Through her generosity roads were built, the health center and church in the Parcelamiento Natividad de María were built and staffed, and medicine was made available to the families living there at no cost. When there was little work available, she ensured families in the area received food stuffs to tide them over during the difficult months between harvests.

Mrs. Alice Asturias has continued to inspire her family and friends in her generosity of spirit, her wit and wonderful care and concern for all around her. We are forever grateful for her efforts and those of her children in the support of the rural families of the area.

Alice Asturias*

2019 Annual Report

*This Annual Report is dedicated
to Mrs. Alice Asturias'
service to the families of FAM.*

Building on the legacy of those that came before us - on behalf of the children of San Marcos, Guatemala - we continue the tradition of caring and support for rural families.

We are committed to supporting and educating children of coffee and other agricultural workers, stimulating development, self-sufficiency and the well-being of rural families in Western Guatemala.

Running a high quality PreK-13 school program, FAM strives to transform the lives of rural families in Guatemala.

With your generosity we continue to pursue our mission of making education accessible to children and their families in San Marcos, Guatemala.

ASTURIAS MALDONADO FOUNDATION

Statistics

FAM's Educational Program improves coverage and quality of education in La Reforma, San Marcos by:

1. Improving the quality of education through continuing and specialized education of its teachers;
2. Expanding and improving program benefits for children and youth, allowing equal opportunities and access to quality education for all;
3. Fostering a culture of responsibility and seeking the best outcomes for teachers, students and families in the region.
4. Using updated and innovating methodologies and tools in the learning process.

Activities and Accomplishments 2019

Activities

- Valentine's Day celebration: youth and teachers exchanged gifts and cards, and held a small celebration that included snacks.
- School council election: Teachers helped organize the school council election. Students participated in polling stations and voted, following a nomination and campaign process.
- Youth Day: An afternoon of sports and recreation activities was organized and held at the multi-sports court and swimming pool at Cantón San Pedrito in La Reforma, San Marcos.
- Inauguration of friendly spaces: Ministry of Health staff and one of their ambulances joined the Youth Day caravan. Later, ministry educators talked to students about self-esteem and the school community in different groups.
- Participation in the Independence Day parade: Schools participated in an event held in La Reforma San Marcos on September 15 that included a rhythmic gymnastics demonstration.
- World's Day for Children: With the support of donors, a special celebration was held for preschool and elementary school students on October 1st.

Achievements

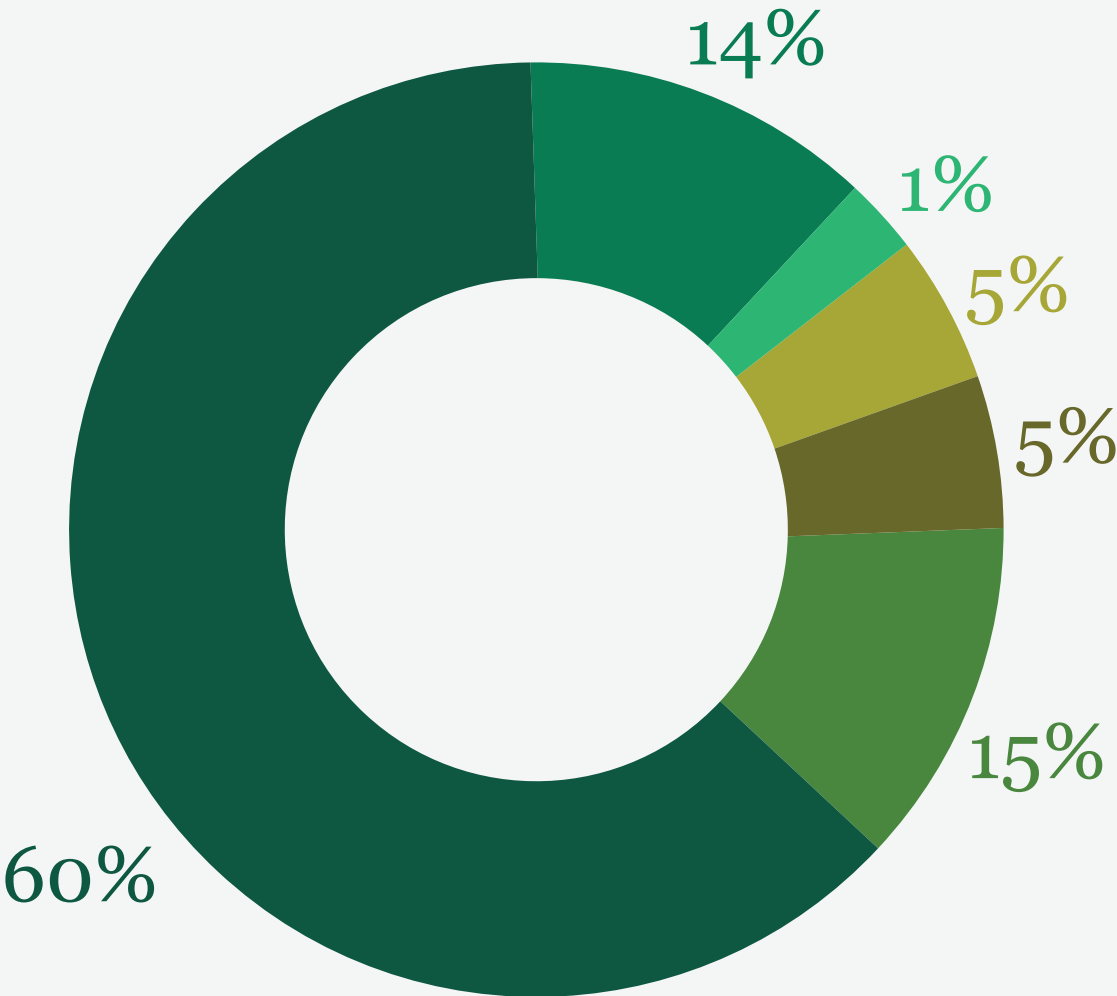

- Silver medal (second place) in Mathematics, 10th grade, in Municipal Science Olympics.
- Silver medal (second place) in Mathematics, ninth grade, in Municipal Science Olympics.
- First and second place in soccer tournament organized by the Ministry of Health during the Friendly Spaces inauguration (secondary schools).
- First and second place in soccer tournament organized by IDC Quetzal San Marcos (secondary school).
- First and second place in soccer tournament for elementary schools, north Region of La Reforma, San Marcos. (Natividad de María development, north and south sectors; Comunidad Nueva Esperanza and Finca Dos Marías).
